

Park Shore Landings

PROJECTS UPDATE:

- Railings have been installed around social room and pool!
- Front door replacement is finished with exception to a few units – waiting for permits.
- Storage room door replacement begins soon! I will be contacting those who are getting doors replaced to have cars moved!!
- All buildings currently have active projects!

Painting Update

Hein Brothers are currently preparing to start the front side of bldg. 4. They will be working on this for approximately one week. After that comes the big equipment on the waterside. They will paint a building and right after the new awnings will be installed. So far this process has moved quite smoothly!!

The carports, unfortunately, will need to be repainted due to humidity and improper drying of the area. I will keep you and your home watch updated on when the repainting will happen.

Have a safe and happy Labor Day

Welcome to our newest owners of PSL:

Barry & DeDe Heckler (134)

Tom & Tracey Dekrone (332)

Mark Lombard (434)

ATTENTION:

Please take extra precaution when walking on the wet newly resurfaced areas around the pool and social room. Until the topcoat has had time to properly dry (without Mother Nature interfering), it can be slick when walking on!

Did you know???

We have executed a contract with Hotwire Communications. Please look forward to communications from us with more detail coming very soon!

Office Hour Update

Labor Day – Sept 4th, the office will be closed!
