

# Park Shore Landings

---

## PROJECTS UPDATE:

- Painting is ½ completed on the waterside. Bldg. 3 will begin next week!

### Painting & Awning Update

Hein Brothers are currently painting the rails on the back side of the buildings 1 & 2. They will take Monday and Tuesday to do some touch ups while preparing the scaffolding for bldg. 3. Awnings will follow after the painting is completed!

### Hotwire Update

Hotwire is now conducting interviews with the homeowners. You should have received an email and phone calls regarding set up. They got an early start on this due to many of you making a brief trip here before coming down this winter. Please don't hesitate to contact me if you have any questions at all about the install process!

### Irma Update

We are working with insurance companies to set a plan of action for replacing damaged carpents and other less urgent repairs. We are in the process of getting bids and waiting for the answers....

## ATTENTION:

Please take extra precaution when walking on the wet newly resurfaced areas around the pool and social room. Until the topcoat has had time to properly dry (without Mother Nature interfering), it can be slick when walking on!

## Welcome Home!

To the many of you who have stopped by to say "hi", Welcome home! We're glad to have you back! For our other friends, travel safe and we'll see you soon!

## Thanksgiving Hours

PSL Office will be closed Thursday and Friday, November 23-24 for the Thanksgiving Holiday!

## **Important Parking Information**

**As you are aware, IRMA took out a few of our carports. While there are some that are still usable, nearly all of them will need some sort of work done. There are currently two carports that are not usable at all – leaving the owners to park their cars in the vacant spots and in front of the buildings.**

**If you are able to utilize your carport, we ask that you always park there. If you have a second vehicle, consider parking in the overflow spots vs. in front of the building. We understand that parking in front of the building will be necessary for buildings 3 & 4 until necessary repairs have been made. The “topless” carport at building 4 CAN be parked in for the time being!**

**If you parked in someone’s carport over the summer, now is the time to move. Many of the owners are returning – even for a brief time to find a vehicle in their parking space – some know who is in their spot – some do not, leaving me searching for the owner.**

**Attached is a vehicle registration form. If you would please take a few moments and fill it out completely and return to the office (you can email it as well) that would be appreciated! By having this information, I can easily follow up with the vehicle owner vs. going through hoops and hassles.**

**Thank you for your patience and cooperation!!**
